1. Welcome
2. Project Summary Presentation
3. Open Discussion and Comments
4. Next Steps

A proposal to construct a new southbound exit off U.S. Route 3 at Exit 36 on the Massachusetts and New Hampshire border is in the planning stages. Please join us to hear a presentation on the proposed project and to offer your comments on the proposal.

The Exit 36 South project, located at the border of Nashua, New Hampshire and Tyngsborough, Massachusetts, has long been identified as a transportation priority in the region. This important project will help reduce traffic congestion, promote economic development and provide enhanced access to alternative modes of transportation.
