

Home Energy Rating System

HERS

An Introduction

Conservation Services Group

Conservation Services Group

HERS (Home Energy Rating System)

- Standard measurement of the home's energy efficiency
- Requires two on-site inspections by a professional home energy rater
- Raters are trained and certified by Residential Energy Services Network (RESNET) accredited home energy rating system (www.resnet.us)

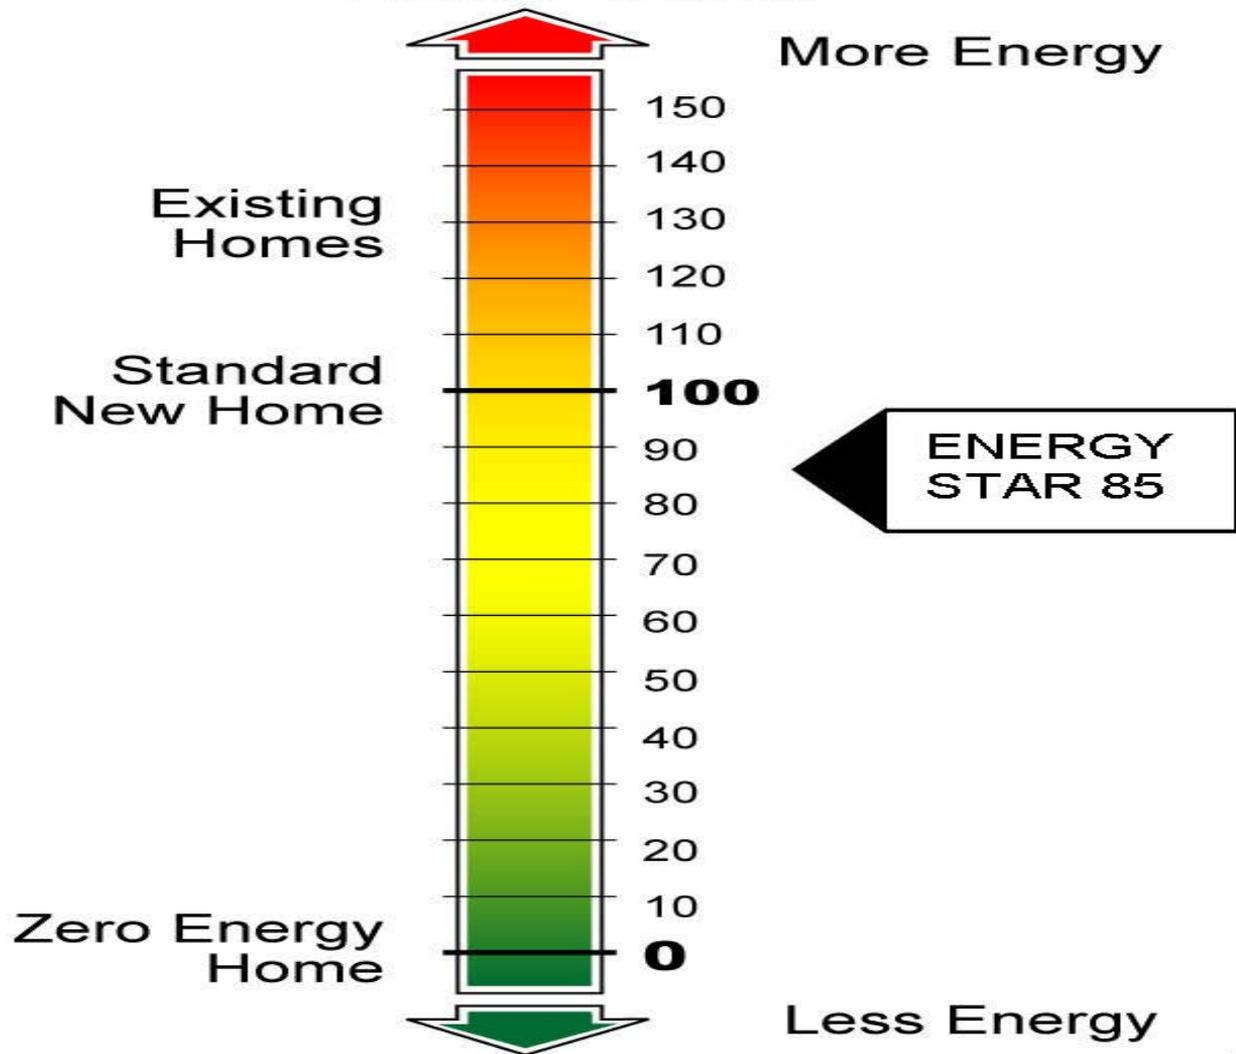

HERS Index

- Compares modeled home to reference home
- Reference Home defined as 100 Points
- 1 percent change in consumption of modeled home as compared to the reference home = 1 point

HERS® Index

HERS - Energy Performance Components

- Building Enclosure
- Mechanical Systems
- Lighting and Appliances
- Renewable Energy
