6:15 P.M. Donald Crowell – 2 Ducharme Lane request for a variance to the 20' leach field setback from the foundation. Matt Waterman recommends the Installation of 40-mil. Poly-barrier in-lieu of a clay barrier, obtain a single component sewage permit prior to installing barrier or replacing building sewer, work to be performed by a Licensed Installer, building sewer shall include cleanouts set to grade at all bends and provide a Certified Plot Plan showing as-built foundation, barrier and sewage components.

FW: Motion to approve the variance for the setback to the foundation at 2
Ducharme Lane including the recommendations as stated by the Septic Engineer

Hearing cancelled – Owned applied for the dumpster permit this morning, May 10th

6:45 P.M. David Sword – 358 Dunstable Road for emergency road opening to connect to sewer line. Home owned did not connect to the municipal sewer line before Dunstable Road was re-paved.
